

# Sorting Cards

- Look at a selection of Christmas cards
- There are lots of images which are commonly used on cards
- From your selection of cards, you are going to create a display showing this information
- You can display this in any way you wish but there are some ideas below
- You could create a chart or graph to show what you have found out e.g. a bar graph, a pie chart, a tally chart or a table
- Or you could sort them into groups to show information e.g. a Venn or Carroll diagram
